## How do i become a spy in fortnite

Elevate your enterprise data technology and strategy at Transform 2021. Epic Games is launching a new social game called Fortnite's Spy Within, which is the company's version of popular social deduction titles like Werewolf and Among Us. This new Fornite experience is based on and named after the popular Fortnite Creative user-generated map, Spy Within, which gamers/creators Kkslider and Dolphin Dom made. A lot of players might view this as predatory, as Epic Games is trying to muscle in on the turf of Among Us, a popular indie title. But it's a familiar pattern, as Among Us is based on the older Werewolf title and Fortnite's battle royale mode is based on the design of PlayerUnknown's Battlegrounds. Epic's move to evolve Fortnite to be whatever it needs to be to hang on to its users as it becomes a sort of proto "metaverse." Spy Within is a new limited-time event for the holidays. While Among Us came out in 2018, it skyrocketed in popularity this year after streamers started playing the simple 2D game. And that inspired Kkslider and Dolphin Dom to build a version inside of Fortnite, which has a section of the map where players can create their own environments for games, dubbed Fornite Creative. In Spy Within, players are dressed as characters from Fortnite, the popular battle royale game that has had more than 350 million downloads. Spy Within has two players, known as the spies, trying to eliminate other players in the space station without revealing their identities. They must do this before the rest of the crew (eight other players) completes their tasks or votes the spies out. Players can use the new Fortnite video chat feature from Houseparty to meet and find the spy. Epic Games acquired Houseparty as a synchronous face-to-face social network with video communication on mobile and the desktop. Houseparty is bringing together eight of Twitch's most popular streamers, like Ninja and Dr Lupo, to play Fortnite's Spy Within with comedian and actress, Sarah Silverman, and TV personality and digital star, David Dobrik. Spy Within is a new limited time Fortnite event for the holidays where players have to team up to root out a player who's working to undermine them within their team. Sarah, David and the streamers will use the new Fortnite video chat feature from Houseparty to meet, collaborate and find the spy. It is airing starting at 3 p.m. Pacific time on December 15. Although some people who belittle the battle royale scene will use the similarities as a way to poke fun at Epic Games, the limited time mode is a lot of fun and here you'll find all the Spy Within quests, challenges, and rewards so you can complete everything on offer in Fortnite. Aside from the limited time mode which this guide focuses on, other news surrounding Epic Games' battle royale is that it can now run at 120fps on next-gen consoles. And, while that's fantastic in its own right, Winterfest 2020 should also be right around the corner and this is a gift everyone should be able to enjoy regardless of platform. While Winterfest 2020 should begin in the very near future, below you'll find The Spy Within quests, challenges, and rewards for Fortnite. What are The Spy Within quests and challenges in Fortnite? The Spy Within quests and challenges for Fortnite are as follows: Play The Spy Within matches (5) Eliminate players in The Spywithin matches (3) Complete tasks in The Spy Within matches (25) Complete all The Spy Within quests And that's all the challenges and quests that are on offer for this very special limited time mode. Know that you can only complete the Elimination task when chosen as a spy, meanwhile you can only complete tasks when playing as a butler. Playing five matches is simple as all you need to do is finish all five bouts without quitting prematurely. Fortnite The Spy Within rewards The Spy Within Rewards for Fortnite are as follows: Back Board Merry Mix Glider Christmas Wrap These are the free rewards which have been advertised on Epic Games' website for completing the challenge pack. The challenges and quests aren't too difficult to complete, so obtaining the skateboard adorned by an agent shouldn't take too long to get. In other news, is Battlefield 2042 crossplay? Cross platform multiplayer news is coming Here's how to complete the spy within quests (Fortnite challenges). Epic Games released the v15.10 Fortnite update yesterday. The update included three new Fortnite weapons and data-miners leaked the upcoming Operation Snowdown Fortnite Christmas event. It was thought that the Fortnite Operation Snowdown event would start when the item shop reset at 9 AM ET. However, that clearly wasn't the case and the Christmas event will likely start today or tomorrow. The snow is beginning to cover the map, so we'd expect the event to begin when the majority of the map is covered in snow. Although we didn't get the Snowdown event, Epic Games did release a new LTM called a Spy Within. The LTM includes challenges and rewards. Here's everything you need to know including how to complete the challenges. The Spy Within Challenges / Quests Fortnite Here are all the Spy Within Fortnite challenges: Play Matches (10) Deal damage with Lever Action Rifle (100) (Creative) Play The Spy Within matches (5) Complete all The Spy Within quests (3) (Creative) Eliminate players in The Spy Within matches (3) (Creative) Complete tasks in The Spy Within matches (25) Players will be rewarded with a glider, wrap, skate deck variant, and a music pack. You can take a look at all of the Spy Within Fortnite challenge rewards below: The Spy Within Fortnite Rewards How to play Everyone in the Spy Within will start the match knowing what team their own and not know who's on their team. The identity of all the other players is hidden. There are two spy players that will try to eliminate the other players in the lobby without revealing their identity. Eight of the ten players are agents and will need to work together in order to find out who the spies are and vote them out before they eliminate players. The agents must gather gold coins by completing objectives around the map in order to win. Players cannot communicate with one another in voice chat unless they are in a meeting and players can call meetings whenever they spot something suspicious or see a player being eliminated. They can then choose to vote someone out. Eliminate players in The Spy Within matches In order to complete the Spy Within Fortnite challenge 'eliminate players in the spy within', you'll need to be the spy. You'll get a notification saying your weapon is ready and you can fire the weapon when you're near a player. You'll want to eliminate players once you know there's no one around or else you risk getting caught and voted out! To help complete this challenge quickly, you'll want to find where opponents are quickly. To do this, we'd suggest you turning on the visualize sound effects option in the audio settings. This way you can see where footsteps are coming from and locate opponents/agents quicker. Complete tasks in The Spy Within matches You'll find tasks all around The Spy Within Fortnite maps. You'll see a holographic notification on objects which shows you there's a challenge you complete. In order to complete tasks in The Spy Within, you need to go up to objects and hold down your interaction button. Tasks in the Spy Within vary and can included but is not limited to putting books away, dusting a shelf, taking the trash out, doing the laundry, and more. Fortnite The Spy Within Tasks Epic Games has launched an entirely new Limited Time Mode (LTM) called 'The Spy Within,' and it revolves around the same general gameplay as hit game Among Us. As you may anticipate, the matches involve unwitting players who are infiltrated by two unknown spies masquerading as teammates — ones tasked with killing as many people as they can without getting caught. Among Us, of course, is the game that spiked in popularity earlier this year, one involving crewmates who complete tasks while attempting to avoid one or more imposters — aliens disguised as crewmates that go around killing people. The players must eliminate the people they think are imposters, potentially getting it wrong and dooming themselves. Fortnite's new The Spy Within LTM is very similar to this, fans have noted. The gameplay involves eight players who are assigned as The Agents; they are tasked with working together to identify the spies and get rid of them (via voting) before The Spies manage to kill everyone. There are two Spies assigned at the start of the match and they must eliminate the Agents while they complete tasks. Voice chat isn't enabled unless a meeting is called, which can happen whenever someone is suspicious or spots a Spy in action. If the Spies eliminate everyone, they win; if the Agents boot them out first, they win. There's a new related The Spy Within Challenge Pack that includes new items, including a skate deck and holiday goods, for those who complete the challenges. The LTM is available now, and like all limited-time modes, it'll eventually disappear.
